

Dear guardians and participants, We acknowledge that this race was riddled with errors and are deeply sorry for it. This was our first official kids triathlon, using electornign timing and with a new course. There was a lot of confusion about the turnaround point with our marshalls due to miscommuncation on our behalf and as a result, some participants did a shorter course than others. This was our fault and we do apologise. We promise you to tighten up our operations for the next event and have taken all your feedback on board. Below is the list of results for both the kids and teens mixed together by gender. We have decided to publish it all with no ranking and provide an egalitarian approach to the results. Sorry once again, please do forgive us and let us make it up to you in March 2018! Until then, train well, GTF.
